

ORLEANS COUNTY MONITOR.

PUBLISHED WEEKLY AT

BARTON, VERMONT.

WALLACE H. GILPIN,
EDITOR AND PUBLISHER.

Terms:—When Paid Strictly in Advance
\$1.50 a Year.

In asking for a change of address, always
state where your paper is now sent.

Success to our new inspector of
finance, Luther A. Cobb of Island
Pond.

Great was the hue and cry over the
Mary Rogers case a few weeks ago,
and it was then alleged that almost
unlimited funds would be forthcoming
to defray the expenses of a new
trial. Now however the attorneys
engaged in the attempt to secure evi-
dence for a new trial report insuffi-
cient funds to go on with the work.
Writing lurid letters is one thing, but
digging up hard cash is another. The
one is easy, the other doesn't appear
to be.—Hardwick Gazette.

The beef trust has been thoroughly
(?) investigated by Uncle Sam and
found to be perfectly square and now
the Standard Oil is to be probed to
the very bottom (?) and the MONITOR
predicts that its record, too, will be
found perfectly clear (?). Uncle Sam,
we believe, might take a lesson from
Vermont in regard to investigations.
The committee looking into the work-
ing of our state institutions probed
and investigated until the truth was
made known about matters, but to a
looker-on the investigation of the
beef trust seems "thin." The whole
time consumed by the investigation
of this great trust was not longer
than that taken by our committee to
look at the workings of one of our
small state institutions.

Hotels and summer boarders are
matters that are commanding consid-
erable interest through the state just
at present. The general opinion is
that we want more summer boarders
but the question is how are we to get
them. Good hotels, says a contem-
porary, and we believe this is the first
step. Judicious advertising is the
next. Possibly the words "good hot-
els" should be changed to "excellent
hotels," for we now have many good
hotels in Vermont. Barton is espe-
cially favored with excellent hotels,
houses that have not only an excel-
lent local reputation but a good name
throughout the state. Landlord
Lothrop at Barton Landing runs a
house that is considered by traveling
men as one of the best in the north-
ern part of the state. The Crystal
Lake House in this village has lately
been remodeled and newly furnished.
It is located near the lake from which
it is named, commanding a beautiful
view of the surrounding mountains.
Boats and canoes are kept in connec-
tion with the house, giving its patrons
opportunity to take pleasure excu-
sions about this charming body of
water. Hotel Barton, also in this vil-
lage, is one of the best built and fur-
nished houses on this side of the state.
In 1886 this building was erected
and furnished at a cost of about
\$25,000. This house is supplied with
water from the famous Crystal springs
and seems to be the "home" of many
traveling men when in this part of
Vermont. These houses have a fair
summer trade now but we believe
that should they carry out the second
step mentioned above, of advertis-
ing their excellent houses more widely,
they might have houses filled to
overflowing with summer people.

Keep Thinking about It.

Cough syrups that are constipating
leave the stomach and bowels in a dan-
gerous condition. A cough syrup that is
a laxative is sure to give better results. Lix-
all is a laxative, and if it fails to cure to-
day, cough or cold we will pay back your
money. H. C. PIERCE, WELLS & WIL-
LARD, GLOVER, F. J. KINNEY, H. S. WEB-
STER, BARTON LANDING.

STATE NEWS.

Woman Killed on Track.

Miss Ellen Lynch of Thomas street,
St. Albans, was run over and prob-
ably instantly killed at about 8:20
o'clock Wednesday evening on the
bay line of the St. Albans street rail-
way. Miss Lynch was last seen alive
at the home of Hugh Hamilton, just
below the trestle on the lake road.

Work Resumed.

Work has been resumed on Ver-
mont's new Medical Building at Bur-
lington. The roof is nearly completed
and the interior is ready for plaster-
ing. The amphitheater is completed
except the terra cotta work. Workmen
are now putting the columns in place
at the entrance and are building the
four-foot coping.

State Sunday School Report.

The annual report of the Rev. Ed-
ward M. Fuller, secretary and field
worker of the Vermont State Sunday-
school Association, which will shortly
be issued, will make the startling
statement that only 23 per cent of the
total Protestant population of Ver-
mont is enrolled in the Sunday-
schools, and this, notwithstanding the
fact that more than 2000 church mem-
bers have been added during the past
year besides over 1,000 men between

the ages of 18 and 44, 900 in the cradle
roll, and 2,100 in the home depart-
ment. At the present time are 675
Sunday-schools in Vermont with a
total membership of 57,091. The next
annual convention of the state associa-
tion will be held in St. Johnsbury
October 17-19, when it is expected
that W. C. Pearce, of Chicago, inter-
national teacher training secretary,
will be present.

Young Man Shot.

Lawrence Trudeau, about 22 years
of age, was shot and instantly killed
shortly before five o'clock Wednes-
day afternoon by a playmate at the
home of Carl Woodworth near East
Sheldon, where he was visiting. The
accident, for such it was, was the out-
growth of a boyish frolic, the lad who
did the shooting, Bennie Bashaw, aged
15 years, being made to believe by the
other boys that there were burglars
about the place. His feelings were so
aroused that when Trudeau appeared
around the corner of the house wear-
ing a mask, Bashaw fired a 22-caliber
rifle without taking any particular
aim. He intended to fire up in the
air but the bullet struck Trudeau, who
was about six rods away, over the eye,
killing him instantly. The body has
been taken to the home of his parents,
Mr. and Mrs. A. M. Trudeau, at Shel-
don.

Meeting of State Agricultural Society.

The annual meeting of the Vermont
State Agricultural Society was held at
the Van Ness house, Burlington,
Wednesday afternoon, nine members
being present. Gov. Bell was also in
attendance. It was reported that
there was a balance of about \$75 in
the treasury. Probably no state fair
will be held next year. There is an
impression that state aid should be
advanced to help make the fair a
financial success. The following
officers were elected: president,
George Aitken of Woodstock; vice-
presidents, C. W. Gates of Franklin,
T. R. Stiles of St. Johnsbury, G. W.
Pierce of Brattleboro, F. L. Davis of
Pomfret; secretary, C. M. Winslow of
Brandon; treasurer, J. W. Parker of
Quebec; finance committee, C. J.
Bell of Walden, H. O. Carpenter of
Rutland, M. H. Miller of Pomfret;
locating committee, George Aitken,
L. S. Drew, H. M. Farnham, H. B.
Kent; board of directors, M. H. Miller,
J. L. Bacon, P. W. Clement, Charles
C. Doe, E. Selden, A. W. Fletcher.

Italians Aroused.

As the result of a perfectly proper
and legitimate effort to enforce the
liquor law, a five-year-old child is
dead under painful circumstances and
Grotton is greatly aroused over the de-
velopments. Charges of keeping and
selling liquor contrary to law having
been made, Louis Pari and wife, Mrs.
Lucy Buzzi and Mrs. Simonelli were
arrested Wednesday on warrants is-
sued by the state's attorney of Cale-
donia county. Officers took the par-
ties to Hatch hall, where the hearing
was to be held before Justice J. C.
Harvey. Rather than leave her child,
who was ill with pneumonia, alone in
the house, Mrs. Simonelli took the
child with her. Upon reaching the
railroad station, accompanied by the
officer, she went inside to rest. In a
few minutes the child was dead in
her arms. The hearing was post-
poned two days. Later two men
went to Mrs. Simonelli's house and,
being refused admission, threw stones
through the window. Two Italians,
who were in the house, discharged
their revolvers at the men, but no
one was hit. Much indignation is felt
among the Italian storekeepers over
the entire affair.

THE LADIES favor painting their
churches, and therefore we urge every
Minister to remember we give a liberal
quantity of the Longman & Martinez Paint
toward the painting.

Waxes and covers like gold.
Don't pay \$1.50 a gallon for Linseed Oil
(worth 60 cents), which you do when you buy
other paints in a can with a paint label on it.
8 & 6 make 14, therefore when you want
fourteen gallons of paint, buy only eight of
L. & M. and mix six gallons pure Linseed
Oil with it, and thus get paint at less than
\$1.20 per gallon.

Many houses are well painted with four
gallons of L. & M. and three gallons of
Linseed Oil mixed therewith.
These Celebrated Paints are sold by H. C.
Pierce.

GENERAL NEWS.

Rockefeller Gift Has Been Taken.

The American board of commis-
sioners of foreign missions announces that
its prudential committee has accepted
the report of the sub-committee
recommending the acceptance of the
gift of \$100,000 by John D. Rockefeller
but final action on it was postponed
for two weeks. The report says that
the board has never passed judgment
on the business, the religion, the
character or the life of any donor to
its funds.

Oakes' Successor Appointed.

Wilcox S. Lovell of Springfield,
president of the J. C. Holmes com-
pany, succeeds E. W. Oakes as su-
perintendent of the Vermont state prison,
Windsor. Mr. Lovell is 59 years of
age and has a wife and one daughter.
He was sheriff of Windsor county for
six years up to December 1, last, hav-
ing been three times appointed by
the governor to fill vacancies and
twice elected. For 32 years Mr. Lovell
was deputy sheriff. The new superin-
tendent will assume office April 1.

Death of Jules Verne, Novelist.

Jules Verne, the noted French nov-
elist, died at Aime, France, March
24th. Most of his works were based
on science, to which he added lib-
erally by a vivid imagination. His best
known books were "Tour of the
World in Eighty Days," "Journey to
the Center of the Earth," "Journey
to the Moon," "The Mysterious Island,"
and "Twenty Thousand Leagues
Under the Sea." He was a prolific
writer, turning out two complete
novels a year.

Powder Mill Explosion.

Three men were killed outright and
another so badly injured that he died
a few hours later, by an explosion at
the Schaghticoke powder mills, north
of Troy, N. Y., Tuesday afternoon.
The bodies of three of the victims
were blown to fragments and after
the accident were scooped up into
water pails. The fourth victim,
White, was found 300 feet away alive,
but he could not recover. It is a re-
markable fact that no fire among the
buildings succeeded the explosion.

How the Maine Was Destroyed.

Gessler Rousseau, who attempted to
blow up the statue of Frederick the
Great at Washington, and who was
convicted in New York last week of
sending an infernal machine to be
placed aboard the Cunarder Umbria,
claims it was a contrivance of his
manufacture that blew up the battle-
ship Maine in Havana harbor in 1898.
He says the plan was to blow up some
of the Spanish war vessels in the har-
bor, but by mistake the mine was at-
tached to Maine. The Cuban who
was responsible committed suicide,
according to Gessler, when he learned
the truth.

Blown Through Roof of Tunnel.

Blown by compressed air through
the roof of the rapid transit tunnel
under the East river, New York city,
through 10 feet of water, and shot
into the air at the apex of a geyser
20 feet high, Monday, March 27, Rich-
ard Creegan, a workman, fell back
into the river unconscious. When
dragged out by rescuers in a boat,
however, he recovered his senses,
and an hour after the accident he was
ready to go back to work. There
were three other men in the com-
pressed air compartment in the tun-
nel with Creegan. Instead of being
forced up through the river they were
flattened against the walls, remaining
there, unable to move, until the pres-
sure was released.

Brooklyn Inquest.

"No evidence has been presented to
me to show the criminal responsibil-
ity of any person for this explosion,
which caused such a large loss of life
and in which the public is so deeply
interested," said Dist. Atty French
Wednesday, in regard to the Grover
factory horror which occurred at
Brooklyn, Massachusetts, March 20.
"The explosion was due to a dan-
ger peculiar to this class of boil-
ers, a danger in the structural form of
the boiler, almost impossible of detec-
tion, and therefore a defect all the
more dangerous because so subtle.
To paraphrase an old saying, I would
say that the person morally respon-
sible for this explosion and loss of
life is the man who devised this par-
ticular type of boiler."

Mrs. Chadwick Gets 10 Years.

Unless the higher court interferes,
Mrs. Cassie L. Chadwick will spend
the greater part of the next ten years
in the Ohio state penitentiary. A
sentence of ten years was recently
imposed upon her by Judge Robert W.
Taylor in the United States district
court. The sentence came at the
close of a busy day for the court in
hearing arguments on a motion for a
new trial. The motion was over-
ruled. Mrs. Chadwick was convicted
upon seven counts and sentenced
upon six counts. For four of these
counts a sentence of two years each
was imposed. Upon two counts a
sentence of one year each was im-
posed, making a total sentence of
ten years. Mrs. Chadwick was not
particularly affected by the action of
the court.

Big Counterfeit Scheme Unearthed.

A counterfeiting scheme gigantic in
its proportions and rich in results,
which has as its field the whole of the
United States, has just been unearthed
by the federal authorities. A number
of government secret service agents
are now in Denver, Col., following
clues which are said to have led them
to believe that the headquarters of the
gang are located in that city. The
operations of the counterfeiters are
said to extend all the way from
New York to San Francisco, and so
far it is believed something like \$50,-
000 has been secured in the larger
cities of the country. The counter-
feit is one of the best duplicates of
the Buffalo series of \$10 and \$20 bills
which has ever come to the attention
of federal authorities. A description
of the counterfeiters as furnished by the
United States secret service follows:
Series 1901. No. 29513972, face plate
159, back plate 87 check letter D
signed Lyons register. Roberts treas-
urer, portraits of Lewis and Clark.
The counterfeiters are a shade darker
than the genuine.

THE WAR.

Very little fighting has taken place
in the far east the past week. Peace
talk seems to prevail. Just how
terms are to be brought about is not
known but in various ways Russia has
made it known that she is willing to
listen to a peace treaty. It is intimated
that Russia would be willing to retire
from Manchuria, to see Japan in pos-
session of Port Arthur and the near-
by coast, to abandon the Eastern Chi-
nese railway and to grant Japan pre-
ponderance in Korea, but she objects
to paying any indemnity or to surren-
dering any strictly Russian soil. It is
unlikely that this would satisfy Japan,
after her great outlay of men and
money. She may limit Russia's naval
expansion in the Pacific so as to se-
cure a pledge of peace. The follow-
ing is a late dispatch from St. Peters-
burg: The Emperor is still the keen-
est advocate of reasons which render
necessary the continuation of the
war. He has, however, contemplated
the possibility of having to sign a
treaty of peace, expressing himself
as follows: "If I have to sign a peace
treaty I cannot remain Czar." The
people are eagerly discussing the true
significance of the imperial statement
and wondering whether it implies
that the Emperor would abdicate or
whether, which is much more likely,
it means that after the conclusion of
peace he would adopt a new attitude
and call upon representatives of the
people to share the responsibilities of
government with him.

A Card.

We, the undersigned, do hereby agree to
refund the money on a 50-cent bottle of
Green's Warranted Syrup of Tar if it fails to
cure your cough or cold. We also guarantee
a 25-cent bottle to prove satisfactory or
money refunded.

Dorothy Baker estate, Newport. Will
presented for probate by H. E. Baker, ex-
ecutor thereof. Hearing, April 17th, 1905.
William A. Croft estate, Derby. Ex-
ecutor's inventory filed.

LETTER TO E. E. LIDDELL,

BARTON, VT.
Dear Sir: Here's something every painter
and builder ought to know.

Mr. J. H. Hall, Sheffield, Pa., painted two
houses, 5 years ago, lead and oil; took 40
gallons. Last year he painted Devoe; bought
40 gallons; had 40 left.

He is one of thousands. The knowledge is
getting about pretty generally, that Devoe
goes further than anything else.

Have you found it out in your own experi-
ence?

How much farther?
Suppose a job amounts to 10,000 square feet;
how much less Devoe could you buy?

Is it as easy to paint? Does it cost any
more or less to put-on by the gallon than
anything else? How much?

If it costs no more to put-on Devoe by the
gallon, it costs less by the foot, you know,
for the gallon does more feet. How much
less, do you find it, for wages?

Lasts, say, twice as long; that is the
owner's gain; but perhaps you reckon it
yours also, some do. The time, when that
comes in, is when he gives-out the next job.

Who gets it?

Yours truly
F. W. DEVOE & CO.

Twombly & Colton, Barton Landig; F. H.
Pierce, Albany; and Sears & Russell, Iras-
burg, Vt.; sell our paint.

"Did you read the account of the
Smith-Jones wedding in yesterday's
paper?" asked young Singleton.

"No," answered Wedderly. "I sel-
dom read the war news."

"Now, Tommy," said the teacher,
"what is the word I have written on
the board—s-l-o-w?"

"Dunno."

"Oh, yes, you do—think. What
does your papa call you when you go
on an errand and don't get back for a
long time?"

"You'd lick me if I told yer,
ma'am!"—Cleveland Leader.

HOW'S THIS?
We offer one Hundred Dollars Reward for
any case of Catarrh that cannot be cured by
Hall's Catarrh Cure.

F. J. Cheney & Co., Toledo, O.
We the undersigned, have known F. J. Che-
ney for the last 15 years, and believe him per-
fectly honorable in all business transactions
and financially able to carry out any obli-
gations made by him.

WALDING, KINMAN & MARVIN,
Wholesale Druggists, Toledo, O.
Hall's Catarrh Cure is taken internally, act-
ing directly upon the blood and mucous sur-
faces of the system. Price 75c. per bottle.
Sold by all Druggists.

Take Hall's Family Pills for constipation.

A FIVE YEARS' GROWTH.

The Citizens' Telephone Company
recently celebrated its fifth birthday
and Manager Buzzell, the creator and
preserver of the system, has every
reason to feel gratified over its record.
When he came from Barton five years
ago and announced that he would
build an independent line and give
our people lower rates, the average
citizen smiled and looked incredulous.
But after five years, more than half
the instruments in Caledonia county
are in the independent system, and
the growth has been unsolicited as far
as Mr. Buzzell is concerned, being due
to the people who wanted to connect
with his lines. The system estab-
lished by Mr. Buzzell extends from
Barton to Woodsville and from West
Concord to West Danville and is con-
stantly expanding. It is also news to
many of our readers that this system
has connections with the People's
Telephone Company with 900 'phones,
and beyond that is the Canadian Peo-
ple's line with about 2000 instruments.
On the south Mr. Buzzell's system
connects at Woodsville with the
Woodsville Telephone Co., and at
Bradford with the Bradford Telephone
Co., and other independent companies
having several thousand patrons. In
Orleans county connections are had
with the Maguire line which has over
400 patrons. Mr. Buzzell has been
very successful in developing the
farmers' lines, and he is beset on all
sides to open up new territory. He is
extending these popular lines as fast
as possible.

Various attempts have been made
to get control of this independent
system, or to have Mr. Buzzell raise
the rates, but he has made good his
promise to give the people lower
rates and proposes to stand by his
colors. His future success, of course,
depends entirely upon the support he
gets from the people.

Within the last few years indepen-
dent lines have sprung up all over
the country and today there are
2,767,000 independent 'phones as
against 1,700,000 other 'phones. In
some states, notably Michigan, the
independent 'phone is found in al-
most every town. Vermonters, espe-
cially the farmers, take kindly to in-
dependent organizations, and as long
as they stand by them their success is
assured, and the public will benefit by
getting lower rates from whatever
company they may patronize. Noth-
ing touches the average man quicker
than his pocketbook and the people
of this section have every reason to
be grateful to Mr. Buzzell for coming
here and bringing telephone rates
down to their present figure. And
his success is all the more remarka-
ble for it has been in the face of cost-
ly litigation and all kinds of opposi-
tion.—St. Johnsbury Caledonian,
March 22, 1905.

Crop of Grass Nearly Doubled.

The Vermont Experiment Station at
Burlington—see their Bulletin No. 56—
claims that 3000 pounds of Salt per acre
practically doubled the yield of grass,
the exact ratio being 26 where Salt
was used, to 14 where it was not. C.
S. Page of Hyde Park, Vt., sells a Salt,
which the Experiment Station says is
even better than ordinary Salt for fer-
tilizing purposes, at \$3.50 per ton, f. o. b.
cars at Hyde Park. If cash accompanies
the order. The freight is low even in
small quantities, but are especially low
if ordered in 12-ton lots.
